I am a graduate student at VISER and I am interested in learning about developing modern and optimized web applications. I am looking for a place to work that aligns with my goals and provides me with a quality environment where I can learn and build on my knowledge.

Experience

Website Redesign for Veterinary Clinic (13.11.2022.)

Internship at Full Dream Solutions (1.3.2024. - 14.4.2024.)

Education

2020 - 2024

The School of Electrical and Computer Engineering of Applied Studies

Projects

M-VET Veterinary

mvet.rs/   **Client Project**

Redesigned outdated website in Figma for veterinary clinic. Implemented design using Webflow page builder and hosted it with the client's domain name. The resulting website is still in use by the clinic.

Road Trip Planner

road-trip-planner1.netlify.app/   **Personal Project**

Created a simple road trip planner in React and utilized Bootstrap and React Three Fiber for styling. The application consists of an interactive packing list to assist trip planning.

Starry Night

https://starrynightstory.webflow.io/   **Personal Project**

I developed a website that showcases the timeless art and the story behind it using Webflow page builder and third party libraries for WebGL rendering and animation.

Skills

HTML, CSS, JavaScript	Webflow	Figma
React.js, Vue.js	Three.js, WebGL, GSAP	Photoshop
Tailwind, Bootstrap	MySQL
